PAK-IT® Neutral Cleaner Earns Green Seal® Certification

February 13, 2018 Philadelphia – Big 3 Packaging LLC (B3P) has been awarded Green Seal Certification for PAK-IT® Neutral Cleaner, meeting the strict environmental and performance guidelines of the Sustainability Leadership Standard for Cleaning Products for Industrial and Institutional Use (GS-37).

ABOUT PAK-IT NEUTRAL CLEANER

This safe, mild and neutral PH formulation is designed to be a part of a daily maintenance program on all sealed wood and other hard non-porous surfaces. It is ideal for wooden office furniture including desks, tables, counters and cabinetry where the daily use of harsh cleaning chemicals is ill-advised. Simply drop 1 pre-measured PAK-IT® Neutral Cleaner into its color-matching Quart Trigger Spray Bottle, add water to the base of the neck of the bottle and attach the trigger mechanism. Allow 1-2 minutes to dissolve then give it a shake to mix and blend throughout. PAK-IT® Neutral Cleaner is also portioned ideally for the many bucket-less mop systems with their 32oz chemical reservoirs. There is no need to cut, tear or open the pod. PAK-IT® Neutral Cleaner was certified for its Jar containing 20 x 3g PVA pods, providing use dilution of 20 Quarts and also for its Tub containing 100 x 3g PVA pods, providing use dilution of 100 Quarts.

“The Green Seal certification of this product is further evidence of the company’s ongoing commitment to delivering commercial cleaning products that are simple, safe and sustainable,” said Owner and CEO of Big 3 Packaging LLC, Richard Higgs. “The combination of Green Seal certification along with PAK-ITs unique pre-measured, liquid hyper-concentrated formula in single-dose, water-soluble packaging is a compelling solution for customers with concurrent sustainability agendas and high-performance requirements.”

Green Seal certification entails a thorough technical product review and an on-site process audit. This ensures that PAK-IT® Neutral Cleaner is manufactured conserving natural resources, using 100 percent recyclable components and packaging that protects human and environmental health, while reducing waste. Specifically, PAK-IT® Neutral Cleaner is non-toxic, biodegradable, contains minimal VOCs and is not formulated with carcinogens. The full list of criteria and details for this certification can be downloaded at www.GreenSeal.org.

ABOUT BIG 3 PACKAGING LLC

Big 3 Packaging LLC (B3P) is a chemical and packaging manufacturer based in Philadelphia PA. B3P specializes in research, development and production of liquid chemical concentrates for single-dose dissolving pods for industrial, commercial and retail purposes. B3Ps flagship brand is PAK-IT®, however, B3P also offers private label services for a number of medium and large consumer product organizations and dealers. For more information on B3P please visit www.big3packaging.com and for more information on PAK-IT® visit www.pakit.com. PAK-IT® is proudly made in the USA and B3P is honored to be a part of Americas renaissance in manufacturing.

ABOUT GREEN SEAL, INC.

Green Seal®, a nonprofit organization founded in 1989, is the nation's premier ecolabel, symbolizing transparency, integrity, and environmental leadership. Its flagship program develops life-cycle-based environmental standards, and certifies products and services that meet them. Green Seal standards cover 450 categories – from janitorial supplies and paints to cleaning services and hotels – and are specified by countless agencies and institutions. Green Seal’s science-based programs empower choices and improvements that transform the economy for a healthier, greener world. For more information, visit GreenSeal.org, or call 202- 872-6400.

These products meet Green Seal™ Standard GS-37, GS-51, or GS-53, as applicable, based on effective performance, concentration of product, minimized/recycled packaging, and protective limits on VOCs and human & environmental toxicity. Non-aqueous liquids have alternate thresholds for acute toxicity, and added requirements for packaging and labeling. GreenSeal.org.
